1. NATURE OF OPERATIONS AND GOING CONCERN

PTX Metals Inc. (formerly Platinex Inc.), together with its subsidiaries is collectively referred to as the "Company" or "PTX Metals", is a Canadian company whose business activity is the exploration and evaluation of mineral properties in Canada. Platinex Inc. was incorporated under the Ontario Business Corporations Act on August 12, 1998. On February 28, 2024, the Company changed its name to PTX Metals Inc.

On March 11, 2025, the Company commenced trading on the TSX Venture Exchange ("TSXV") under the symbol PTX. In connection with the TSXV listing, the Company voluntarily delisted from the Canadian Securities Exchange. The address of the Company's corporate office and principal place of business is 82 Richmond Street East, Toronto, Ontario, M5C 1P1, Canada. The address of the Company's registered office is 130 King Street West, Suite 3680, Toronto, Ontario, M5X 1B1, Canada.

On September 11, 2024, the Company completed a consolidation of its common shares on the basis of four (4) pre-consolidation shares for one (1) post-consolidation share. All share and per share information presented in these consolidated financial statements has been retrospectively adjusted to reflect the share consolidation.

These condensed interim consolidated financial statements were approved and authorized for issuance by the Board of Directors on August XX, 2025.

For the six months ended June 30, 2025, the Company incurred a net loss of \$1,652,759 (six months ended June 30, 2024 - \$914,686) and has an accumulated deficit of \$20,035,412 as at June 30, 2025 (December 31, 2024 - \$18,416,195).

Management estimates that the funds available as at June 30, 2025 may not be sufficient to meet the Company's obligations and budgeted expenditures through December 31, 2025. The Company will have to raise additional funds to continue operations. The Company is pursuing financing alternatives to fund its operations and to continue its activities as a going concern. Although there is no assurance that the Company will be successful in these actions, management believes that it will be able to secure the necessary financing through the issuance of new debt and equity.

Although these condensed interim consolidated financial statements have been prepared using IFRS Accounting Standards ("IFRS") applicable to a going concern, there is a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

These condensed interim consolidated financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities, to the reported expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and under the historical cost method, except for certain financial instruments measured at fair value.

These condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the years ended December 31, 2024 and 2023 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted are consistent with those disclosed in the Company's consolidated financial statements for the years ended December 31, 2024 and 2023, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2025 could result in restatement of these unaudited condensed interim financial statements.

2. BASIS OF PREPARATION (Continued)

Recently announced accounting pronouncements

IFRS 18 "Presentation and disclosure in the financial statements" has been issued which will replace IAS 1 "Presentation of financial statements". This standard aims to improve the consistency and clarity of financial statement presentation and disclosures by providing updated guidance on the structure and content of financial statements. Key changes include enhanced requirements for the presentation of financial performance, financial position, as well as additional disclosures to improve transparency and comparability. In addition, IFRS 18 requires entities to classify income and expenses into five categories, three of which are new – i.e. operating, investing and financing – and the income tax and discontinued operation categories. The new standard sets out detailed requirements for classifying income and expenses into each category. IFRS 18 is effective for annual periods beginning on or after January 1, 2027 and will be applied retrospectively. The Company is currently evaluating the impact of adopting IFRS 18 on the condensed interim consolidated financial statements.

Amendments to IFRS 9, Financial Instruments, and IFRS 7, Financial Instruments: Disclosures

In May 2024, the IASB issued Amendments to the Classification and Measurement of Financial Instruments. The amendments clarify that a financial liability is derecognized on the settlement date and introduce an accounting policy choice to derecognize a financial liability settled using an electronic payment system before the settlement date. Other clarifications include guidance on the classification of financial assets with ESG-linked features, non-recourse loans and contractually linked instruments. The amendments are effective for annual periods beginning on or after January 1, 2026. Early adoption is permitted, with an option to early adopt only the amendments to the classification of financial assets (for contingent features). The Company is currently in the process of assessing the impact of the amendments on the consolidated financial statements and notes to the consolidated financial statements.

Shining Tree Property, Ontario

The Company's partially owned subsidiary, South Timmins, holds a 100% interest in the Shinning Tree Property. In 2011, the Company vested an option agreement with Skead Holdings Ltd. ("Skead"), with respect to 139 claim units (5,680 acres or 2,299 ha), situated in Churchill, MacMurchy and Asquith Townships in Ontario (the "Shining Tree property"). The Company held a 100% interest in the claims subject to a 3% NSR and advance royalty payments of \$10,000 per year commencing in April 2019. Advance royalty payments for 2019, 2020 and 2021 have been paid.

PTX Metals may eliminate the requirement for future advance royalty payments by making a one-time advance royalty payment of \$100,000. Two thirds of the 3% NSR may be reduced by payment of: \$75,000 for each one-quarter percent for the first one-half percent; \$150,000 for each one-quarter percent for the second one-half percent; \$250,000 for each one-quarter percent for the third one-half per cent, and; \$400,000 for each one-quarter percent for the final one-half percent (\$1.75 million in aggregate). If Skead wishes to sell the residual royalty interest the Company retains a right of first refusal to purchase the NSR.

The Company entered into two agreements in August 2016 and a further five agreements in November 2016, January 2017, March 2017, April 2017 and June 2017 and staked claims in December 2016 which significantly expanded the size and potential of its Shining Tree gold property. PTX Metals has entered into an option agreement with Skead and Ashley Gold Mines Limited ("Ashley Gold"), with respect to certain claims situated in Churchill, MacMurchy and Asquith Townships, in Ontario. PTX Metals acquired a 100% interest in the 54 claim units and 50% interest in a further 8 claim units (991 ha or 2,480 acres), subject to a 2% NSR, by issuing 50,000 shares of PTX Metals (issued in 2016), and by making cash payments (or share equivalent) of \$95,000 and by incurring property expenditures of \$500,000 during the ensuing four-year period to August 17, 2020 (the "Skead-Ashley option").

5. EXPLORATION AND EVALUATION ASSETS (Continued)

Shining Tree Property, Ontario (continued)

PTX Metals also entered into an agreement with two prospectors to purchase a 100% interest in four claims comprising 20 claim units (320 ha or 800 acres) in Churchill, MacMurchy and Asquith Townships, in Ontario by issuing 100,000 shares of PTX Metals (issued in 2016). PTX Metals subsequently entered into five agreements with one prospector to purchase a 100% interest in: ten claims comprising 70 claim units (1,120 ha or 2,800 acres) for 99,500 shares on November 3, 2016 (issued in 2016); four claims comprising 43 claim units (688 ha. or 1,720 acres) for 17,857 shares on January 25, 2017; eight claims comprising 96 claim units (1,536 ha or 3,840 acres) for 21,676 shares on March 30, 2017; 21 claims comprising 267 claim units (4,272 ha or 10,680 acres) for 97,813 shares on April 20, 2017 and 9 claims comprising 127 claim units (2,032 ha or 5,080 acres) for \$5,000 and 109,048 shares on June 20, 2017. PTX Metals also staked claims comprising 45 claim units (720 ha or 1,800 acres). Six claim units were subsequently included in the Skead Agreement.

In January and March 2019, the following amendments were made to the Skead-Ashley option agreement:

- (i) The option in arrears was increased to \$30,000 and due on January 18, 2019 through the issuance of shares (issued);
- (ii) Final option payment of \$30,000 (payable in cash) due August 1, 2019; (amended see below)
- (iii) Year 3 expenditures of \$150,000 due on or before August 17, 2020; (amended see below)

On April 12, 2019, the Company closed a transaction for the assignment of its ownership rights, under the Skead-Ashley option agreement with respect to a 50% interest in claim L4212960, to Goldeye Explorations Ltd., a subsidiary of Treasury Metals Inc. The terms include proceeds of \$25,000 received in cash and a 1% NSR royalty on 50% of the claim. The remaining requirements under the Skead-Ashley option were accordingly amended to:

- (i) Final option payment of \$28,000 (paid);
- (ii) Year 3 expenditures of \$140,000 due on or before August 17, 2020; (waived)

On July 24, 2020, the Company announced that pursuant to the terms of the mining investment agreement (the "Purchase Agreement") dated July 15, 2020 between the Company, Treasury Metals Inc. ("Treasury") and its wholly-owned subsidiary Goldeye Explorations Limited, the Company has acquired an aggregate of 208 unpatented mining claims located in the Shining Tree District, Northern Ontario (the "Mining Claims") and three net smelter royalties (the "Royalties").

In consideration for acquiring the Mining Claims and the Royalties (the "Acquisition"), PTX Metals issued to Treasury 3,125,000 common shares ("Consideration Shares") of PTX Metals and 1,250,000 non-transferable common share purchase warrants ("Consideration Warrants") of PTX Metals. Each Consideration Warrant entitles Treasury to purchase one common share of PTX Metals at a price of \$0.20 per share for a period of 24 months from the date of issue. If Treasury exercised the Consideration Warrants on or before September 1, 2020, it would have received an additional non-transferable common share purchase warrant (a "Secondary Warrant") for each Consideration Warrant exercised. Each Secondary Warrant entitles the holder to purchase one common share of PTX Metals at a price of \$0.80 per share for a period of 24 months from the date of the closing of the Acquisition. The Secondary Warrants provide that Treasury shall not exercise the Secondary Warrants if such exercise would result in it owning 20% or more of the issued and outstanding common shares of PTX Metals.

The Consideration Shares were valued at \$750,000 based on the share price on July 15, 2020. The Consideration Warrants issued were assigned an aggregate fair value of \$210,000 using the Black-Scholes option pricing model with the following assumptions: share price of \$0.24, dividend yield 0%, expected volatility 194%, risk-free rate of return 0.27% and expected life of 2 years.

The parties have agreed that the Consideration Shares will be placed in a voluntary escrow agreement, with 25% (3,125,000 Consideration Shares) to be released on the 12th, 15th, 18th and 24th month anniversaries of the closing of the Acquisition. Treasury has agreed to support and vote for the recommendations of the Company's management at all shareholder meetings of the Company held during the time that the Consideration Shares are held in escrow. As at December 31, 2024, there were no Consideration Shares held in escrow.

The Royalties consist of a 100% interest in three royalty agreements, consisting of (i) a 2% net smelter royalty in respect of the Sonia-Puma Property held by Minera Goldeye Chile Limitada (which has been acquired by Newmont Goldcorp); (ii) a 1% net smelter royalty in respect of nine mineral claims forming part of the McFaulds Lake Project held by Big Tree Carbon Inc. (formerly AurCrest Resources Inc.); and (iii) a 2% net smelter royalty in respect of 29 mineral claims located in MacMurchy Township, Ontario held by Golden Harp Resources Inc.

Prior to September 1, 2020, Treasury exercised 750,000 Consideration Warrants for proceeds of \$150,000, and the 750,000 common shares were issued to Treasury in November 2020. In connection with the exercise of the Consideration Warrants, 750,000 Secondary Warrants were issued to Treasury. The 750,000 Secondary Warrants were assigned an aggregate fair value of \$129,000 using the Black-Scholes option pricing model with the following assumptions: share price of \$0.24, dividend yield 0%, expected volatility 202%, risk-free rate of return 0.24% and expected life of 1.87 years. The value of the Secondary Warrants was included in share capital as share issue costs. Treasury has the right to participate in future financings which may be conducted by PTX Metals in order to allow it to maintain its pro rata equity interest in PTX Metals for a period of 24 months from the closing of the Acquisition. The Purchase Agreement also provided Treasury with the right to appoint one nominee to the board of directors of PTX Metals for a period of two years.

On August 14, 2020, Skead and Ashley Gold waived the requirement for PTX Metals to conduct and file \$140,000 of assessment work prior to August 17, 2020. On December 4, 2020, Skead-Ashley accepted that the Year 4 expenditures had been incurred which resulted in the vesting of the option and the claims were duly registered in PTX Metals's name.

On August 18, 2021, the Company acquired additional mining claims in Shining Tree Property from Alamos Gold Inc. Consideration for the additional mining claims included 1,250,000 common shares of PTX Metals (fair valued at \$200,000) and 2% net smelter returns royalty on the mining claims. One half of the 2% NSR may be reduced by payment of \$500,000.

On March 22, 2022, the Company acquired 63 mining claims adjoining its Shining Tree Project from Skead. Consideration for the mining claims was \$11,500 (paid) and the issuance of 100,000 shares (valued at \$20,000). The mining claims are subject to a 2% NSR of which the Company has the rights to repurchase up to 1% NSR at the rate of \$400,000 per 0.5% NSR.

On December 29, 2022, the Company acquired a 100% interest in two (2) claims in Leonard township. Consideration for the mining claims was the issuance of 37,500 common shares (valued at \$6,000).
